## Frequently Asked Questions

### How long will it take to learn Salsa?

This depends on the individual's coordination, some people progress really quickly after learning the basic steps which are the first thing we teach and in a couple of weeks are allowed to move to the improver level. Some others take longer so there's no set pattern.

### What do I need to wear for class?

There are no requirements on this respect. Some people come to class straight from the office and some prefer to change into more comfortable clothing.

Notice that Salsa is not an aerobics class so there is NO need to wear gym clothing at all.

### Do I need to bring a partner?

Although Salsa is mainly a couples dance, we tend to swap partners during class so each student gets to dance with a variety of partners which helps coordination and develops sense of rhythm.

### What else do I need to know?

One of the most important points to consider when attending a class is good hygiene, which should be observed at all times.

## What our students say

There are leaders and there are followers, then there is the best, Nelson Batista. The ONLY place to learn how to dance.

**Lorraine D.**

Nelson has natural rhythm and talent as a dancer, engaging personality and unique teaching style. He makes sure students develop a solid understanding of the basic steps and art of Latin dance, helps us improve steadily as dancers and encourages us in our discovery of personal styles. The classes, from beginners to advance, are always fun and inspiring, one of my favourite treats :)

**Snezhina G.**

If you want to learn salsa from a pro then Nelson is your man! Great music, great moves and a fun friendly atmosphere. His style of teaching is easy to follow. Whether absolute beginner or an advanced student, he hones in on technique, style and coordination, choreographing sequences for all abilities. Ive tried the rest but Im sticking with the best! Nelson is a true master of latin dance.
